CERTIFICATE

It is certified that the project titled **[Project Name]** has been carried in group are bonafide students of BCA VI semester, Department of Computer Application, Silver Oak University, Ahmedabad, Gujarat. The project is a record of the work accomplished during the sixth semester of BCA as a partial fulfillment of the requirement for the award of degree in Bachelor of Computer Applications (BCA), under my guidance.

Department of Computer Application,

Silver Oak University, Ahmedabad, Gujarat.

DECLARATION

We hereby declare that project entitled **"<TITLE OF PROJECT>>"** in partial fulfillment for the degree of **Bachelor of Computer Application** to **Silver Oak University**, Ahmedabad, is bonafide record of the project work carried out at **SILVER OAK COLLEGE OF COMPUTER APPLICATION** under the supervision of **<<Name of Guide>>** and that no part of any of these reports has been directly copied from any student's report or taken from any other sources, without providing due reference.

ACKNOWLEDGEMENT

We would like to express our profound sense of deepest gratitude to our guide **<<Name of Guide>>**, Silver Oak College of Computer Application (SOCCA), Ahmedabad for valuable guidance, sympathy and co-operation for providing necessary facilities and sources during the entire period of this project.

We wish to convey our sincere gratitude to all the faculties of Department of Computer Application who have enlightened us during our studies. The facilities and cooperation received from the technical staff of department is thankfully acknowledged.

The main credit for the successful completion of this project can be given to Principal of our college Dr. Hemal Patel who supported us throughout this enterprise.

We express our thanks to all those who helped us in one way or other.

Last, but not least, we would like to thank the authors of various research articles and books that were referred to.

ABSTRACT

Fiber reinforced polymer composites, developed primarily for the aerospace and defense industries, are a class of materials with great potential to use in civil infrastructure. Since the construction of the first all-composite bridge superstructure in Miyun, China, in 1982, they have been gradually gaining acceptance from civil engineers as a new construction material.

Table of Contents……..…..vi

1 Introduction

1.1 Project Profile 1

1.2 Overview 2

1.3 Motivation 5

1.4 Goal 7

1.5 Organization of the Report/Thesis . . . . . .

2 Initial System Study

2.1 Chapter Introduction . . . . . .

2.2 About Organization . . . . . .

2.3 Drawbacks of the existing system . . . . . .

2.4 Problem definition . . . . . .

2.5 The proposed system . . . . . .

2.6 Scope of the system . . . . . .

2.7 Scope of this project . . . . . .

2.8 System development approach . . . . . .

3 Feasibility Analysis

3.1 Section Name . . . . . .

4 System Analysis

4.1 Introduction . . . . . .

4.2 Data flow diagram

4.3 Entity relationship diagram . . . . . .

4.4 Physical and behavioral aspects of the system . . . . . .

4.4.1 Sub section here . . . . . .

5 Software Requirements Specifications

5.1 General Description . . . . . .

5.1.1 Product Perspective . . . . . .

5.1.2 Product Functions . . . . . .

5.1.3 User Characteristics . . . . . .

5.1.4 General Constraints . . . . . .

5.1.5 Assumptions and Dependencies . . . . . .

5.1.6 Functional Requirements . . . . . .

5.1.7 Functional Requirement . . . . . .

5.2 External Interface Requirements . . . . . .

5.2.1 User Interfaces . . . . . .

5.2.2 Hardware Interfaces . . . . . .

5.2.3 Software Interfaces . . . . . .

5.3 Performance Requirements . . . . . .

5.4 Design Constraints . . . . . .

5.4.1 Standard Compliance . . . . . .

5.4.2 Hardware Constraints . . . . . .

5.4.3 Other Requirements . . . . . .

5.4.4 Scope of this project . . . . . .

6 System design

6.1 Introduction . . . . . .

6.2 System Architecture . . . . . .

6.3 Module Design . . . . . .

6.4 Database Design . . . . . .

6.5 Input Output Design . . . . . .

6.6 Algorithm design . . . . . .

6.7 Electronic Data Communication Design . . . . . .

6.8 System Maintenance . . . . . .

6.9 Other Alternatives Considered . . . . . .

7 System Implementation

7.1 Hardware Components . . . . . .

7.2 Software Environment . . . . . .

7.3 System Development Platform . . . . . .

7.4 Project Accomplishment Status . . . . . .

7.5 Guidelines for Continuation . . . . . .

7.6 Hardware Components . . . . . .

7.7 Software Environment . . . . . .

8 System Testing

8.1 Test Plan . . . . . .

8.2 Test Cases . . . . . .

9 Conclusion & Future Direction of Work

9.1 Conclusion . . . . . .

9.2 Future Direction of work . . . . . .
